### **DETAILED ACTION**

1. Claims 1, 5-7, 10-36 and 41-43 are pending in the instant application. Claims 1, 5 and 10 have been amended and claims 2-4, 8, 9 and 37-40 have been canceled as requested by Applicant in the Paper filed May 16, 2005.
2. Upon further consideration and as discussed with Applicants' representatives in the interview on May 25, 2005, restriction to one of the following inventions is required under 35 U.S.C. 121.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 5-7 and 10-32, drawn to compositions comprising a sulfamate compound and an apoptosis inducer, classified in class 530, subclass 351, for example.
- II. Claims 33-36 and 41-43, drawn to methods of treatment of inducing apoptosis comprising administration of the composition of Group I, classified in class 514, subclass 12 for example.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case other compositions could be used in the method of inducing apoptosis.

Art Unit: 1646

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
